

Razor Tape

Specials

The razor wire coils are manufactured using mild steel wire and are equipped with sharp blades. It adds an anti-climb quality to almost all fences.

Product detail

BENEFITS

- The barbed wire systems “Razor Tape” are an effective deterrent to climbing the fence, they provide maximum delay and limit break-ins.
- The state of the art coating technology guarantees a long product lifetime.
- All accessories are precisely integrated for quick and easy installation.
- A large variety of products is available on demand (a.o. different coil diameters) providing different levels of security.

Systems

The Standard Razor Tape product of Betafence has a wire diameter of 2.5 mm and consists of a continuous mild steel strip that is enclosed with sharp blades. All coils are clipped together to obtain a stable and homogeneous network.

Flat concertina: This is a network of spirals that are clipped and has a flat overlap.

The razor wire is a single ribbon of barbed wire with sharp blades that are unclipped and stretched above the fence.
